**2. Call Header**

IZU OGR Project Support Program 1st Call for 2023

**3. Call Details**

|                                    |                                                                                                                                              |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Call Purpose</b>                | The purpose of the call is to encourage undergraduate and graduate students studying at our university to conduct research through projects. |
| <b>Application Deadline</b>        | 28/02/2023 (Until 17:00)                                                                                                                     |
| <b>Project Duration</b>            | Maximum 5 months (Implementation) + 1 month (Reporting)                                                                                      |
| <b>Project Support Upper Limit</b> | 8.500 TL (Including the scholarship fee)                                                                                                     |
| <b>Scholarship Fee Upper Limit</b> | 1.500 TL                                                                                                                                     |

**4. General Conditions**

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Who Can Apply?</b>      | IZU undergraduate and graduate students who are actively studying                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Academic Counseling</b> | Projects should be carried out under the academic supervision of IZU faculty members or IZU faculty members who have completed their doctoral qualifications. The electronic document processes of the supported project are carried out by the project consultant.                                                                                                                                                                                                                                                                                                                                                   |
| <b>Support Coverage</b>    | Grant support is provided from IZU equity for the <b>machinery/equipment, consumables, travel and service procurement expenses</b> required by the research projects prepared by undergraduate and graduate students studying at IZU. Conference participation, publication and patent, accommodation and daily (food and beverage) expenses cannot be included in the project support budget.<br><b>Scholarship fee</b> may be requested up to the upper limit determined in the project budget. The scholarship fee is paid to the student coordinator within 1 month following the submission of the final report. |
| <b>Result Report</b>       | The project result report must be submitted within 15 days from the end of the project implementation period.<br>If the final report is not submitted, the next applications of the project coordinator will not be evaluated and the requested project scholarship fee will not be paid.                                                                                                                                                                                                                                                                                                                             |

**5. Application Process**

- Wet-signed scan of the **Project Application Form** with the download link below is uploaded to the **E-Application** system, which is linked below. The original form must be kept.
- Project applications will be evaluated by the **IZU Scientific Research Projects Commission**.
- The result of the evaluation will be notified to the relevant applicant via **e-mail**.
